THE ACADEMY

Governor Dummer, the oldest boys' boarding school in the United States, celebrated its bicentennial during the academic year 1962-1963. It was founded in 1763 under the will of Lieutenant Governor William Dummer of the Massachusetts Bay Colony who left his farm and colonial mansion, both still a part of the school property, to three trustees with directions to build a grammar schoolhouse. In this now restored schoolhouse Samuel Moody, during the 27 years of his headmastership, trained twenty-five percent of the boys who graduated from Harvard and many leaders of the new nation.

Since its incorporation not for profit in 1782, the Academy has been owned by a self-perpetuating Board of Trustees. It owes its present position among the nation's boarding schools to the continuing devotion of its trustees and faculty and particularly to Dr. Charles S. Ingham, Headmaster from 1907 to 1930, and to Dr. Edward W. Eames, Headmaster from 1930 to 1959.

The Academy conceives its function to be the providing of a dedicated and able faculty, modern equipment, a congenial atmosphere, and a standard of excellence which will inspire boys to value thorough learning and to develop a lively sense of responsibility to themselves and to the community.

RELIGION

While Governor Dummer is non-sectarian and welcomes boys of all faiths, we firmly believe that religion should be an integral part of a boy's moral training. Each Sunday the school chaplain conducts a non-denominational service. Occasionally the sermon is delivered by a visiting minister or educator or by a faculty member. The chaplain is available to the boys during the week to provide guidance and counsel. The Religious Discussion Group, seniors chosen to represent a variety of faiths, meets each week, and student delegates from Governor Dummer attend the Northfield Religious Conference each year. All sophomores take a half-credit course in the *History of Religion,* and a half-credit elective course, *Religion and Contemporary Society,* is offered to juniors and seniors. A new chapel building will be completed during the academic year 1963-1964.

COURSE OF STUDY

The course of study covers the four years of high school, 9th through 12th grades, and is designed to prepare boys for any college, either liberal arts or engineering. Class sections are kept small, averaging thirteen or fourteen boys. We maintain flexibility in each boy's program, designing it to fit his needs and wants.

There are five major fields into which the course of study is divided, with sections being provided in many courses to challenge boys to advance according to their ability and previous training.

English

All regular English courses stress composition; weekly themes of several hundred words, or their equivalent in longer papers, are assigned. The reading of prose, poetry, and drama is included in the study of literature, and an intensive study of formal grammar in the freshman year is supplemented by a review of grammar in each succeeding year.

More than the conventional amount of time is devoted to English at Governor Dummer. In addition to the regular 9th-grade course in *English 1,* about two-thirds of the freshmen take an additional course in *Language Study* to gain further training in composition, vocabulary, spelling, reading, and précis writing. At the sophomore level the full-unit course in *English 2* is supplemented by a required half-unit course in *Vocabulary Building* which provides, among other things, training in developmental reading by use of reading films and a tachistoscope. A special feature of *English 3,* the regular 11th-grade course, is the concentration of the reading around the central theme of the American Civil War. In addition to the regular *English 4* course for seniors, there is an advanced senior course, *English 4A,* based on a study of "The Great Books." All junior and senior classes are conducted as seminars.

A half-unit course in extemporaneous *Public Speaking* is required of all seniors.

Mathematics

Mathematics 1 at the 9th-grade level is a course in

first-year algebra. In *Mathematics 2* (10th grade) and *Mathematics 3* (11th grade) the study of plane geometry and of second-year algebra is combined in a two-year integrated course. Accelerated sections will also study solid geometry and plane trigonometry before the end of *Mathematics 3*. For those students who enter the Academy at the 11th grade level, small sections of *Plane Geometry* and *Algebra 2* are offered when necessary. Three courses are offered at the senior level (12th grade). *Mathematics 4A* is largely a course in analytic geometry and probability. *Mathematics 4B* includes plane trigonometry and selected topics from advanced algebra, analytic geometry, and introductory calculus. *Mathematics 5* is an Advanced Placement course in calculus.

Foreign Language

The majority of the boys study both Latin and a modern foreign language. Although it is not required for a diploma or for college admission, the study of Latin, in addition to providing cultural background, is of great practical value to the students in their English and modern-language work. Three years of Latin are offered.

Modern foreign languages offered are the following: French, 4 years; Spanish, 4 years; German, 4 years.

The beginning courses in each language are conducted partly in English, partly in the foreign language involved, for we believe that there will be more understanding if some of the explanation is done in English. In succeeding courses increased emphasis is

placed upon oral work, in order that the boys may be trained to speak and understand, as well as to read and write, a language not their own.

History

Five courses are offered in this area. *Ancient History,* a half-credit freshman course, is a survey of civilizations from the prehistoric era to the fall of the Roman Empire. *Asian History,* primarily a sophomore course, provides the background for an understanding of the developments taking place in the countries of the Far East and their effect on world affairs. *Modern European History,* the junior course, surveys the political, economic, and social developments within the various countries of Europe, their relationships with each other and with the rest of the world from the 17th century to the present. It is designed to provide background essential to an understanding of international affairs. All seniors are encouraged to take *United States History.* Planned to provide the boy with the significant facts about his country's history and to train him in organizing and interpreting them, the course emphasizes constitutional and diplomatic history and relates the development of this nation to developments in other parts of the world. Extensive outside reading and the writing of term papers are required. One section prepares for the C.E.E.B. Advanced Placement Examination. *International Relations* is a half-credit elective course open to juniors and seniors. It stresses the relationship of the United States with other areas of the world from the end of World War I to the present.

Science

At the freshman level a half-credit course, *Science 1,* is offered. It introduces the boys to some of the problems and techniques which are explored in more detail in Biology, Chemistry, and Physics. The course is taught jointly by the Biology, Chemistry, and Physics instructors. *Biology* is taught on two levels. For sophomores there is a course at the regular secondary-school level. An introductory course at the college level, with emphasis on individual research, is available for juniors and seniors. At both levels the boys study both plant and animal life and spend about one-half of the year on human anatomy and physiology. *Chemistry* is offered to juniors and seniors. The course emphasizes the development of the scientific attitude toward solving chemistry problems through the Chemistry Study approach developed by the National Science Foundation. The *Physics* course is also offered to juniors and seniors. Developed at M. I. T. by the Physical Science Study Committee (P.S.S.C.), it is designed to show that physics is a unified subject and that it is constantly growing and developing rather than remaining a sterile collection of facts. An additional one-half unit course in *Advanced Physics* is offered for seniors who have had one year of physics and who are currently studying chemistry.

All courses beyond *Science 1* involve double laboratory periods, outside reading, and term papers or research projects.

Miscellaneous

A half-credit elective course in the *History of Art* is available for juniors and seniors.

A half unit of academic credit may be earned by any boy who elects to take individual weekly lessons on a musical instrument, who practices four periods per week, and who participates in one of the three ensemble groups (string, woodwind, and brass) which are part of the Academy's music program.

The academic facilities include a library of over 9,000 volumes, separate laboratories for Chemistry and Physics, a combination laboratory-classroom for Biology and General Science, a science lecture room, two seminar rooms, twelve classrooms, an audio-visual room, and two study halls.

WORK PROGRAM

All boys take part in the work program. Each one takes care of his own room, helps in cleaning his dormitory, and takes his turn waiting on tables. Besides these regular jobs, a boy may be a member of the staff of the school store, the athletic stockroom, the library, or the post office. He should expect to be called upon to help in other ways when and where he is needed.

GUIDANCE AND COUNSELING

All masters expect to counsel boys and any master may advise a boy, depending upon the problem involved. The corridor master usually acts *in loco parentis* in everyday matters. The school chaplain provides guidance on spiritual problems and the Headmaster is sought by, and seeks out, boys on problems of all sorts. Academic guidance is the province of the Direc-

tor of Studies, who handles college placement and is advisor to seniors. He is also chairman of a committee of experienced faculty members who act as academic advisors, one at each grade level.

HEALTH

Two experienced trained nurses are in residence at the school infirmary. The Anna Jaques Hospital in Newburyport, ten minutes away, is available in emergency cases. This hospital is recognized as a Grade A institution by the American College of Surgeons. The school physician is on call at all times and visits the infirmary daily when any boy needs attention.

All boys are instructed to report any sickness or accident to the nurses. It is our policy to call the school physician in all cases about which there is doubt in the nurses' minds. Care is taken to report to the parents all illnesses and accidents which are not trivial. In some cases we make the first report by telephone or telegraph.

ATHLETICS

Governor Dummer has a vigorous athletic program in which all boys are required to take part under the coaching and supervision of the masters. Each boy is expected to contribute to the extent of his natural ability, and, to make this possible, a sufficient number of squads is provided in each sport to permit the boy to compete at his own level. Games with teams from other schools are arranged for virtually all squads. Although the various teams may compete with a wide variety of schools, the schools which they most often

meet are indicated by the 1962 varsity football and soccer schedules set forth below.

Varsity Football

St. Sebastian's Country Day School
Moses Brown School
Browne and Nichols School
Milton Academy
Groton School
St. Mark's School
Belmont Hill School

Varsity Soccer

Phillips Academy, Andover
Noble and Greenough School
Browne and Nichols School
Brooks School
St. Paul's School
Milton Academy
Belmont High School
Tabor Academy
Medford High School
St. Mark's School
Middlesex School
Belmont Hill School

The fall sports are cross-country, football and soccer. In the winter the boys may choose among basketball, hockey, track, and wrestling. Baseball, golf, lacrosse, tennis, and track are the organized sports in the spring.

Recreational golf, tennis, skating, and skiing are available for spare time in season, and optional Sunday trips to the snow country in New Hampshire are organized under the supervision of a master. The Ould Newbury Golf Club maintains a good nine-hole course on land which is leased to the Club by the Academy. The arrangement provides that Governor Dummer boys who wish may enjoy the privileges of the course by paying to the Club a nominal annual fee of $12, tax included. An active Rifle Club shoots on the school's target range on Sunday afternoons, again under faculty supervision.

Governor Dummer's athletic plant includes two gymnasiums; four football and lacrosse fields; three

soccer fields; three baseball fields; a quarter-mile cinder track with a 220-yard straight-away, and appropriate run-ways and take-offs for field events; two hockey rinks, one with artificial and one with natural ice; six all-weather tennis courts; and access to the Ould Newbury golf course.

STUDENT GOVERNMENT

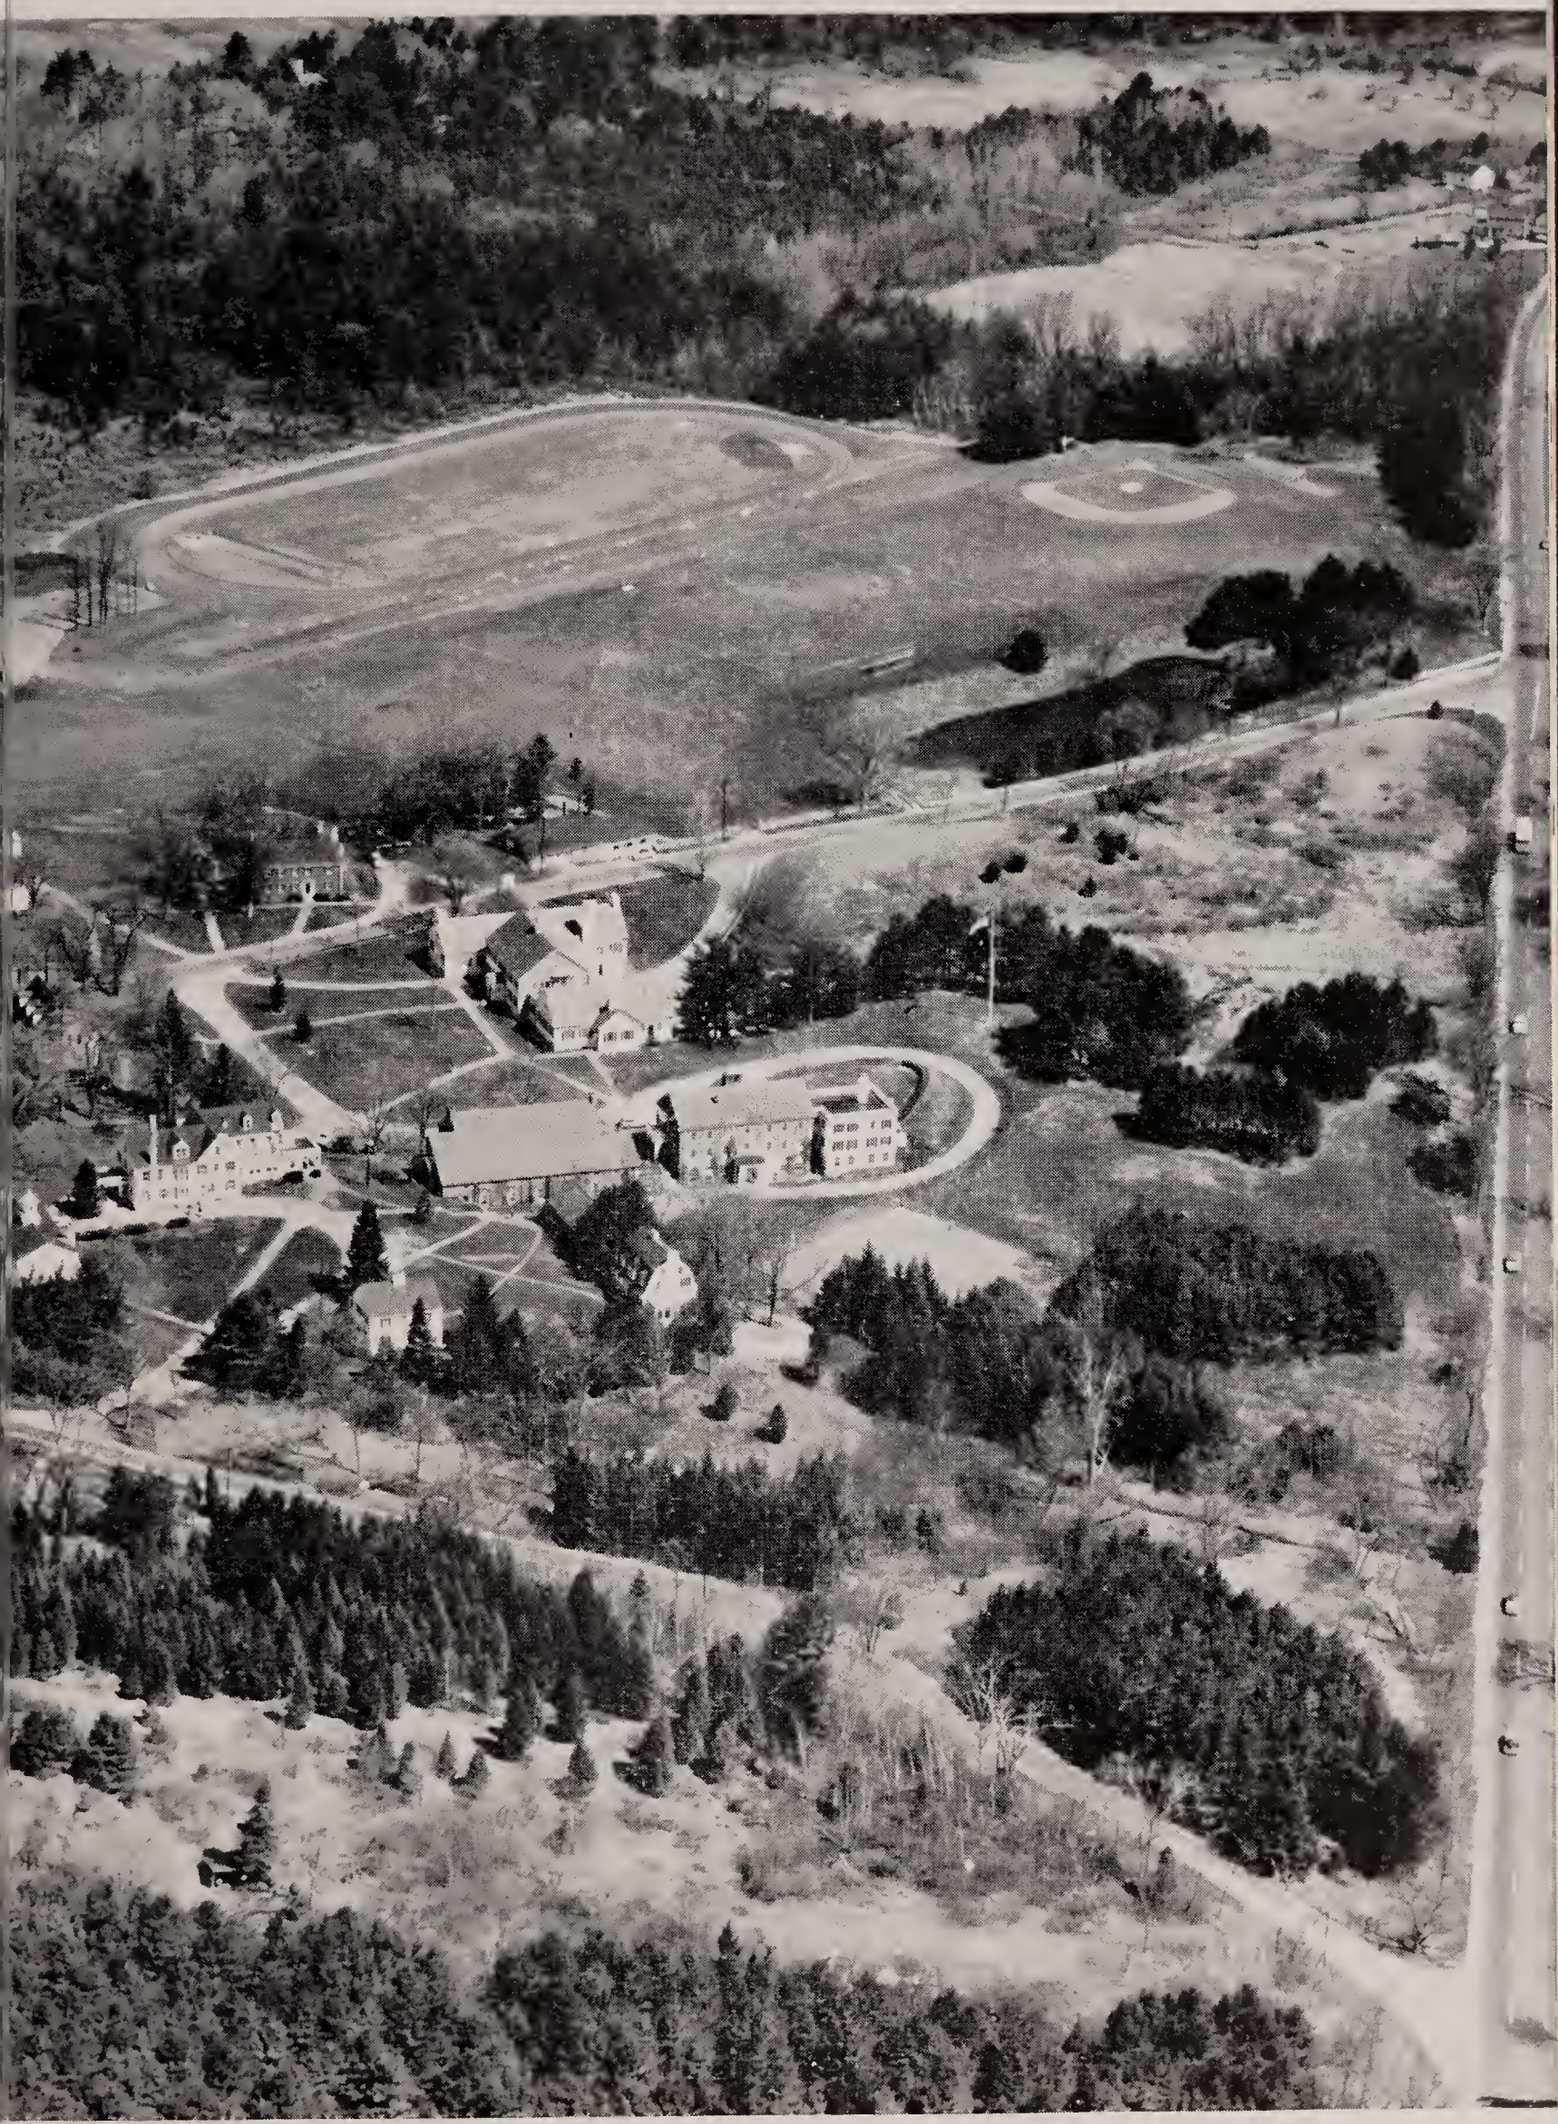
The Academy strongly believes in the development of a sense of responsibility in all students. One of the ways of achieving this purpose is through the involvement of the largest number of boys in the activities of student government. Accordingly, all members of the senior class carry out important assignments as supervisors of the library, study hall, dormitories, and dining room under the leadership of three elected class officers. In addition, the class as a whole works closely with the Headmaster on matters of discipline and school morale.

VACATIONS AND WEEK-END PERMISSIONS

In addition to the regular vacations at Christmas and in early spring, there is a Thanksgiving recess extending from the close of classes on Wednesday to Sunday evening, and a "Winter Week-end" extending from the close of classes on Thursday to Sunday evening in mid-February. If a boy's scholastic effort is satisfactory, he may also secure a week-end permission about once each term to go home, to visit relatives, or to another boy's family.

The Phillips Building contains offices, dining hall, and dormitory rooms.

The Frost Building houses laboratories, classrooms, and the library.



The Library in the Frost Building.

ACTIVITIES

Boys are encouraged to participate in extracurricular activities in the time not absorbed by their studies. The following are available:

Organizations

Art Club
Camera Club
Choir
Creative Writing Club
Debating Club
Dramatic Club
Fishing Club
Glee Club
Instrumental Groups
Machine Shop
Outing Club
Radio Club
Religious Discussion Group
Rifle Club

The Academy is glad to encourage new and perhaps informal organizations, such as popular music groups and a Stamp Club, if there is sufficient interest.

Publications

The Governor, the school newspaper
The Milestone, the year book

Dances

The school sponsors two dances, one during the fall term and one during the spring term. The Glee Club has a schedule of joint concerts with girls' schools and a dance follows each of these concerts. Each year there are varying numbers of invitations from nearby girls' schools to supply groups of boys for dances at those schools.

VISITS TO SCHOOL

Parents are welcome at Governor Dummer at any time, and especially for games, concerts, or Sunday chapel. Sunday afternoon is a particularly good time for visits since that is the time when boys are least likely to have engagements. On Saturday or Sunday when other appointments do not conflict, boys may obtain permission to leave the campus for a stated period of time with their parents or other adults and to miss either the mid-day or the evening meal. The school will use its discretion as to the number of such permissions granted each term.

COLLEGE ADMISSION

Governor Dummer prepares its graduates for a wide variety of colleges in all parts of the country. In the five years 1959-1963, there were 286 boys graduated, not including English Exchange Students, of whom 283, or 98.9%, were accepted by four-year colleges. Colleges which received five or more boys, with the number received, are the following:

Bowdoin	10	U. of New Hampshire	8
Brown	11	Princeton	9
Cornell	6	Trinity	11
Dartmouth	10	Tufts	9
Denison	11	Tulane	6
Hamilton	5	U. of Pennsylvania	21
Harvard	19	Williams	7
Hobart	6	Yale	8
Middlebury	14		

EXPENSES

For a *boarding student* unavoidable charges are the following:

$2,550 per year, payable in three installments (on or before opening day in September, December 1, and February 1,) or through the Insured Tuition Payment Plan, details of which are available on request. This includes tuition, room, and board; expenses incurred *at the school infirmary* for out-patient treatment, residence and nursing care up to seven days per illness, ordinary medicine, and the services of the school physician; and dormitory room furnishings including bed linens (but not blankets).

$50-$75 per year for miscellaneous expenses including the cost of books and school supplies; athletic equipment (shoes, skates, hockey and lacrosse sticks and gloves, tennis rackets, golf clubs) not provided by the school; bus fare to church if the boy attends church off campus; and College Board examination fees for upper classmen.

For a *day student living in areas other than the Town of Newbury or the Parish of Byfield* unavoidable charges are the following:

$1,200 per year payable in three installments as above or through the Insured Tuition Payment Plan. This includes tuition and luncheons.

$50-$75 per year for miscellaneous expenses as above.

For a *day student living in the Town of Newbury or the Parish of Byfield* unavoidable charges are the following:

$500 per year payable in installments as above or through the Insured Tuition Payment Plan. This includes tuition and luncheons.

$50-$75 per year for miscellaneous expenses as above.

For both boarding and day students there are certain optional school expenses and personal expenses. These might include subscriptions to the student publications, the annual spring and fall dances, optional bus trips, laundry and pressing clothes, $2 or $3 weekly allowance, and health insurance or actual medical expenses not covered in the tuition payment.

The school does not charge for weekly Saturday evening entertainment, nor for lectures or concerts at the Academy. There are no laboratory, library, machine shop or photographic dark room charges. The athletic department provides uniforms and protective equipment for all boys young and old.

ADMISSION

Because of the limited number of places available for new boys each year, we cannot accept every applicant who meets the minimum scholastic requirements. Selection is based on character, seriousness of purpose, and upon scholastic record and promise. The Academy is interested in having qualified students from all sections of the country. No new students other than exchange students are admitted to the senior class, and

the number of places for new boys diminishes at the sophomore and junior levels.

Admission procedure *for boarding students* is normally the following:

1. *Preliminary Application.* A preliminary application card is enclosed. Parents who may wish to have their sons become candidates should fill out and return this card. Filing it does not involve a fee and does not commit the parents to the school. It only insures that they will be notified at the proper time of further steps in the admissions procedure. If the parents have not been in touch with the school prior to December 1 of the year preceding the year of proposed admission, a final, rather than a preliminary, application form will normally be enclosed with this catalogue.

2. *Interview.* Unless distance or other circumstances make it impossible, we ask all candidates to visit the Academy for a personal interview. Such visits are welcomed at any stage of the admissions procedure, but because the interview is a factor taken into account by the Admissions Committee, the committee will not consider a final application until the interview, if there is to be one, is held.

   The Admissions Office is open from 9:00 A.M. to 5:00 P.M., Monday through Friday; 9:00 A.M. to 12:30 P.M. on Saturday, and on Saturday afternoon by request. Visitors are asked to make appointments in advance.

3. *Secondary School Admission Tests.* These tests, administered in December, February, and April of each school year at centers throughout the world by the Educational Testing Service, are asked of all candidates. The Bulletin of Information describing these tests and containing an application for a ticket of admission to them is published in September of each year. At that time copies will be mailed by the school to all candidates for admission in the following September who have filed preliminary applications. Thereafter copies will be mailed or given to all candidates as they apply for admission until the last testing date. It is strongly recommended that candidates take the tests in December, for there are usually few vacancies left for boys who take the tests in February or April.

4. *Final Application.* On or about December 1, the school will mail to each preliminary applicant a final application form consisting of two parts. One part is to be filled out by the parent or guardian and returned to the school. In order to receive consideration, it must be accompanied by a non-returnable application fee of $10. The other part is a transcript form and is to be given to the principal of the candidate's then current school with a request that it be filled out and sent to Governor Dummer Academy. We cannot assume responsibility for having transcripts sent to us and must ask parents to see to it that this is done.

For boarding candidates there is no deadline for filing a final application, but in order that it may receive prompt and full consideration, we recommend that it be filed as soon as possible after it is received.

5. *Notification.* When the results of the Secondary School Admission Tests taken in December reach the Academy in mid-January, the Admissions Committee will consider each candidate whose file is complete at that time. The parents of each of these candidates will be notified that we can or cannot offer an acceptance. In a few cases we may ask a candidate to take a place on a waiting list. In such cases we will notify the parents promptly if and when an opening for the candidate develops.

   By agreement with other members of the Secondary School Admission Test Board no candidate for admission in September, 1964, will receive a formal acceptance prior to February 15, 1964, unless the candidate happens to attend an elementary school which is a member of the Independent Schools Education Board and has followed the early acceptance procedure set up by that organization. Candidates whose files are not ready for consideration in mid-January will receive consideration and notification as soon as their files are complete.

   Parents of candidates who have applied to more than one school are urgently requested to tell all of the schools involved of their decision

immediately upon the boy's acceptance at the school of his choice. It is extremely helpful to the schools and to the boys on their waiting lists to know just as soon as possible that an accepted candidate will or will not enroll.

6. *Enrollment.* For each boy accepted in February, a place will be saved until March 15. Parents should notify the school by letter on, or as far as possible in advance of, that date if the boy will attend and is to be enrolled at Governor Dummer. The parents' letter must be accompanied by an enrollment deposit in the amount of $50. This sum is non-returnable, but it will be credited against the first tuition payment. Enrollment will be confirmed promptly by letter from the school.

   The amount of time during which places will be saved for boys, if any, accepted after February will be stated in the acceptance letters.

7. *Placement Tests.* In the absence of special circumstances, we ask all newly enrolled boys to take tests in English, Mathematics, and, where appropriate, in foreign languages to help us place them in proper courses and sections. If the boy comes to us from a school at which he writes the May N.A.I.S. examinations, we will ask such school to forward the boy's papers to us and use them for placement purposes. If the boy does not write N.A.I.S. examinations, we ask him to take tests of our own devising in early May. These are administered at the school

for boys who live within a reasonable distance. They are mailed to the parents of boys living at a greater distance and may be administered at home or elsewhere according to arrangements made by the parents.

Admission procedure *for day students* is the same as that for boarding students with the following exceptions:

1. Day student candidates must take Secondary School Admission Tests in December.

2. A final application must be filed by January 15 of the calendar year in which admission is proposed.

Day students are accepted only if they live in the following areas: Newbury, Newburyport, West Newbury, Rowley, Salisbury, and that part of Georgetown within the Byfield Parish.

SCHOLARSHIP AID

Insofar as possible we provide scholarship aid to deserving and well-qualified boys. There is no set schedule of scholarships, the awards depending upon the strength of the boy's qualifications and his financial need. Parents applying for such aid are asked to fill out a School Scholarship Service form which will be sent if need for aid is appropriately indicated on the final application for admission. Both boarding and day students may qualify for scholarship aid.

GEOGRAPHICAL DISTRIBUTION

For the school year 1962-1963, the Academy opened with 216 boarding boys enrolled from 27 states, the District of Columbia, and four foreign countries as follows:

Alabama	1	Missouri	1
California	4	New Hampshire	9

TRAVEL DIRECTIONS

Although the mailing address of the Academy is South Byfield, the school is legally in the Town of Newbury, Massachusetts. The beautiful old farming area in which the campus lies is in the heart of this historic Essex County town and has from time immemorial been known as South Byfield, probably so called because, in the best New England tradition of place names, it lies east and slightly north of the village of Byfield, also a part of the Town of Newbury. The South Byfield post office exists largely for the benefit of the Academy and nearby Adelynrood, an Episcopal summer conference area. South Byfield does not appear on road maps, although Byfield and Newbury do.

The Academy is readily accessible by automobile, being located directly on U. S. Route No. 1 four miles south of Newburyport and about half way between Byfield and Newbury as they are shown on road maps. Its railroad station is Newburyport, and most of the Greyhound buses which run between Boston and Portland, Maine, stop at the school on request. Logan International Airport at Boston is the most convenient airport handling commercial planes. Those travelling by private plane may find Plum Island Airport, just outside Newburyport, more convenient.

TELEPHONE NUMBER

The school is served by the Newburyport, Massachusetts, telephone exchange. The number is Area Code 617-462-6643.
